Phone Number:

**How did you learn about Farm Philly?**

**Please select the following project type you are interested in:**

Note: Please see the Application Terms and Definitions section on page 5 of the Application Form for definitions of these terms.

## **Community Garden**

**Leasing land for a farm/community farm/nonprofit farm** (e.g., vegetable farm, flower farm, seed production/keeping farm)

**Leasing land for an agriculture project** (e.g., fruit and nut orchards, beekeeping/apiary, etc.)

**How will you use your garden/farm/agriculture project or open space?** Check all that apply.

Growing food in individual plots

Growing food in communal or collective beds

Growing flowers

Growing plants for seeds

Growing plants and stewarding the land for ancestral practices and traditions

Growing fruit and nut orchards

Stewarding pollinators (e.g. beekeeping/apiary)

Space for social activities, wellness garden, sitting, or other activities

Other (please list all activities): \_\_\_\_\_

**Do you understand that your project must have a public benefit and be publicly accessible due to it being located on public parkland?** Community gardens must be open to the public at least 10-20 hours a week, during the garden season. Check your answer below.

Yes  
No

**How will gardeners or visitors access the garden/farm/agriculture project?**

Open access - the garden isn't locked or does not have a fence.  
Gate is open to the public during specific hours  
Combination lock  
Key lock  
Other: \_\_\_\_\_

**How will your garden/farm/agriculture project access water? Check all that apply.**

From the hydrant – PWD hydrant permit required -  
<https://311.phila.gov/s/article/Hydrant-Permit>  
Utilize water barrels and other containers  
Through an existing water line on site  
We need to build a new water line at our own expense  
Other \_\_\_\_\_

**Please attach a budget and fundraising plan, if available.**

**Please include a detailed description and map of the proposed space including the following:**

Include a drawing that shows the physical layout of the site: perimeter of garden, layout proposed working access point and number of garden beds, orchard area, pollinator bed areas, public entrances, water source, compost bins, and any proposed structures or fencing. Include a key to explain any markings on the map, and the total square footage of the proposed space

- This can be a hand drawing or a computer drawing, such as a screenshot from Google Maps marked with your computer's photo editing software.
- Here is an example from the Pleasant Playground Community Garden:

**PLEASANT PLAYGROUND COMMUNITY GARDEN AND LEARNING CENTER**  
20 May 2019  
Scale: 1/16"=1'0"
